FY2008 Second Quarter Revenue Highlights

General Fund revenues through the second quarter of FY2008 increased approximately \$3.05 million—1.48%. Through the second quarter of FY2007 there was an increase of 5.0% (\$9.9 million) compared to the same period in FY2006. The following highlights are offered for the City's major revenue categories:

- Intergovernmental revenues decreased -2.33% (approximately -\$2.06 million). Consolidated tax, which accounts for 97% of the revenue in the category, declined -2.48% (approximately \$2.1 million). The slowdown in the housing market, coupled with a slowing national economy and a slowing local economy, has contributed to the decline noted in the City's main revenue source.
- Taxes through the second quarter of FY2008 increased 8.1% (roughly \$4.5 million) compared to the prior year.
- Licenses and Permits increased 1.5% (approximately \$600 thousand) through the second quarter of FY2008. Franchise Fees increased 5.9% (\$1.6 million) due to a healthy increase in the Electric Utility Franchise fees—rate increases and more demand were the stimulus. On the downside, Other Licenses and Permits were down -35% (roughly \$930 thousand) due to the decline in the housing market.
- Charges for Services decreased -6.7% (approximate decline of \$923 thousand) through the second quarter of FY2008. Corrections Charges decreased -19.8% (-\$700 thousand) due to less beds rented to Federal Inmates.
- Fines and Forfeits increased 1.6% (\$119 thousand) through the second quarter of FY2008.
- Miscellaneous fees increased 55% (approximately \$812 thousand) due to a large payment received as payment for a legal settlement, as well as, a deposit made to the City by a developer in connection with downtown. Also, Interest Earnings increased 55% (roughly \$267 thousand) due to a better effective rate of return and an increase in the investment pool.

Selected Enterprise Fund Revenue:

- Building permits decreased -31% through the second quarter of FY2008. The decline was due to the drop in the housing market.
- Sewer Connection fees decreased -31% through the second quarter of FY2008. The decline was due to the drop in the housing market.
- Parking revenues increased 14.9%. The increase was due to more tickets written, compared to the prior year, because a number of unfilled Parking Enforcement Officer positions existed in FY2007—those positions were filled in FY2008.

Trend Analysis--State Shared Revenues

State Shared Revenues decreased \$2,101,405 (-2.45%) through the second quarter of FY2008 compared to the same period in the prior year. Taxable sales, for July through November, decreased -1.5% for the State as a whole. In Clark County, taxable sales increased 0.4%. The drop in taxable sales for the State can be attributed to the housing market slowdown, Legislative issues, and a slowing economy. The main Legislative issue effecting the category was AB621 which gave tax breaks to certain qualified builders of energy conserving structures. As for the slowing economy, consumer confidence is down resulting in less spending on motor vehicles, building materials, furniture, and entertainment.

Consolidated tax, which consists of six different revenue sources, accounts for the majority of the revenue in the category. The six revenue sources are pooled at the County level and are distributed (by the State Treasurers office) to the local governments under a two tiered formula. A base amount of revenue was initially established under the 1997 legislature and it has been adjusted each calendar year by the change in CPI to create the ensuing year base allocation. Accordingly, the City receives a base monthly allocation (calculated by the increase in CPI applied to prior years total distributions) and any excess collections above the base amount. Any excess collections are distributed based on a formula that incorporates population and growth statistics. The increase in the CPI used to calculate FY2008 base amounts was 2.5%.

As a side note, the second quarter year to date figure represents only four months of revenue (July-October). The Consolidated Tax Distribution for November and December will be received in January and February and are recorded in the month of receipt--an accrual is not made.

Trend Analysis--Other Local Govt. Shared Revenues

Second quarter revenue for FY2008 increased \$9,823 (0.52%) compared to the same period in the prior year. The revenue category consists of County Gaming Licenses, Contributions From Other, and Payment in Lieu of Taxes (PILT). Payment in Lieu of Taxes had no revenue for the period while County Gaming Licenses increased \$9,823 (0.52%) and Contributions From Other increased 100% (\$97,609).

The County collects gaming taxes from various City gambling establishments and subsequently distributes the proceeds to the City. County Gaming Licenses are levied upon the casino on a monthly basis per slot machine, per table game, and other miscellaneous games at varying rates depending on the type of game. These fees are paid quarterly in advance.

Trend Analysis--Ad Valorem Property Tax

Ad Valorem Property Tax increased \$4,374,903 (8.08%) through the second quarter of FY2008 compared to the same period in the prior year. The allowable tax rate increased 0.19%, the tax rate levied remained the same (at 0.6765), and assessed value increased 11.89% (22.03 billion to 24.65 billion).

In past years, a correlation existed between the rise in property tax revenue and the increase in assessed valuation because the formula used to calculate the tax was based on assessed valuation. Beginning in FY06, the formula used to calculate property taxes was changed due to the 2005 Legislature. The 2005 Legislature put a cap on the amount the property owners tax liability can increase. For residential properties, the cap is not to exceed more than 3% of last year's tax liability.

Trend Analysis--Business Licenses

Business Licenses, through the second quarter of FY2008, increased \$111,047 (1.47%) compared to the same period in the prior year. The overall increase in FY2007 was 12.62% and this was due to a legislative change in 2005 that changed the way the City collected fees from professionals (attorneys etc.). As a result, a backlog of unbilled fees were processed in FY2007 and this accounted for much of the double digit increase. Consequently, FY2008 may not stack up well against the handsome increase seen in FY2007. In addition, the housing slowdown has effected this category, wherein, some businesses that sprouted due to the housing bubble have failed which translates to less business license revenue.

Trend Analysis--Liquor Licenses

Liquor licenses through the second quarter of FY2008 decreased \$171,694 (-14.12%) compared to the same period in the prior year. The category consists of semiannual license fees and original new license fees. Semiannual fees range from \$100 to \$1,200 and are due in advance on April 1st and October 1st. Original new license fees are one time fees which are due and payable at the time of filing an application. The decrease can be attributed to less new original licenses sold compared to the same period in the prior year.

Trend Analysis--Franchise Fees

Through the second quarter of FY2008, Franchise fees increased \$1,571,790 (5.86%) compared to the same period in the prior year. The following summarizes the activity for the period:

Gas Utility	decreased	\$ (203,225)	-7.28%
Electric Utility	increased	\$ 1,549,758	11.88%
Telephone Utility	decreased	\$ (260,463)	-4.85%
Garbage Utility	increased	\$ 36,738	2.31%
Cable Utility	increased	\$ 88,631	5.56%
Sanitation Assessment Fee	increased	\$ 354,515	15.89%

The decrease in the Gas Utility can be attributed to a rate decrease and less demand. The Electric Utility and the Cable Utility increased due to more demand and rate hikes. The Telephone Utility's decline was due to more customers switching to wireless. The increase in the Sanitation Assessment Fee was due to a timing variance between journal entries from year to year.

Trend Analysis--Reimbursable Charges

Reimbursable charges decreased \$598,832 (-15.50%) through the second quarter of FY2008 compared to the prior year. The revenue category consists of four revenue sources (only two are material)--Charges for Labor/Materials and General Government Cost Allocation.

Charges for Labor/Materials decreased \$196,600 (-9.98%). The other line item in the category, General Government Cost Allocation, decreased \$401,664 (-21.21%). The decline noted for the General Government Cost Allocation was due to a lower allocation rate, as well as, a smaller labor base to which the rate is applied.

Trend Analysis--Miscellaneous Fees

Miscellaneous fees through the second quarter of FY2008 increased \$19,759 (1.10%) compared to the prior year. Miscellaneous fees consist of Recreation Charges and Theater Performances. Recreation Charges increased \$309,461 (21.40%) while Theater Performances decreased \$289,703 (-83.84%). The following highlights some of the more significant increases noted to Recreation Charges:

Recreation Charges	\$increase	%increase
Park User Fees	\$89,277	303.99%
Tournament Fees	\$57,454	62.01%
Recreation Class Fees	\$82,968	12.38%

The increase in Park User Fees was due to the addition of Floyd Lamb Park while Tournament Fees increased due to an additional tournament added as part of the Mayor's Cup Soccer Tournament. The large decline noted in Theatre Performances (Cultural Activity Fees) was due to a policy decision in FY2007 to recognize services rendered to the City Council and Mayor (strictly for reporting purposes--no payments were received because they were not actually charged). In FY2008, services rendered to the City Council and Mayor have not been recognized and this accounts for large decrease noted in the category.

Trend Analysis--Parking Revenue

Parking revenue through the second quarter of FY2008 increased \$285,040 (14.85%) compared to the prior year. The revenue category consists of Meter fees, Fines, and Penalties. Meter Fees, Fines, and Penalties increased \$27,874 (4.78%), \$163,370 (16.86%), and \$93,796 (25.50%)--respectively. The increase can be attributed to the fact that FY2007 was down due to six unfilled Parking Enforcement Officer positions--these positions are now filled resulting in more tickets written.
